Blash Advisory

BLASH APPS · AI AUTOMATION ACROSS SECTORS

AI that does the *work.*

A suite of apps, and much more, built around your use case. You name it, we build it for you.

Weeks
from first call to live, working software

Minutes
to change a live system when your business changes

Top 1%
in AI usage: we build with AI every day

Fixed fee
agreed before work starts, and you own everything we build

What we have already built

Examples, not the limit. You name it, we build it for you.

01
The Blash Core

Blash Orchestrator
One control room for every agent you run.

Loop
Humans in the loop, by design.

Blash Brain
Your company's knowledge, answerable with citations.

Blash Assistant
A governed assistant for every desk.

02
Finance & Performance

Integrated Finance Platform
Contract to cash to board, in one system.

Cashflow Command Centre
See the cash before it moves.

Blash Budgeting
A budget you can defend line by line.

Blash Reporting
The board pack, without the rebuild.

03
Growth & Revenue

GTM by Blash
Outbound for firms with a narrow buyer.

Blash Voice
No enquiry goes unanswered.

Blash Bid
First proposal in a day, not a week.

04
Operations & Control

Blash Inbox
The inbox becomes a queue.

Blash Capture
Stop re-keying. Start checking.

Blash Reconcile
Reconciliation that runs unattended.

Blash Renewals
See what is at risk, well before it renews.

Blash Govern
AI your auditors will sign off.

05
Funds & Investments

Due Diligence Automation
The same standard of diligence on every deal.

Portfolio Intelligence System
Every portfolio company in one view, every figure sourced.
LIVE AT PIS.BLASH.UK

Deal Screener
Every inbound deal scored against your thesis.

Four outcomes

What every build is for

Higher productivity
Work that took days takes hours, and your people spend their time on judgement, not assembly.

More sales and revenue
More of the right buyers reached, every enquiry answered and proposals out the same day.

Lower cost
Less re-keying, chasing and rework, and no extra hours bought just to keep up with volume.

More from your team
The team you have handles more work, with the exceptions in front of a person and the rest done.

How we work

Fixed fee, agreed upfront

01	Discover	**30-minute call.** You describe the workflow that hurts, or the outcome you want.
02	Audit	**3 days.** A readiness audit, with every use case scored on payback and risk. Yours to keep.
03	Build	**Within weeks.** Working software on your real data, before the full rollout.
04	Govern	**From day one.** Approvals, monitoring and audit trails, with the DPIA and policy pack.
05	Deploy	**Weeks 4 to 8.** Rollout, team training and playbooks, so your people use it well.
06	Partner	**Ongoing.** Changes in minutes as your business moves. Flat retainer, or take the code and run it.

Beyond the enterprise Ascent: an AI career agent you can offer as outplacement support. Live at ascent.blash.uk.

Start with a 30-minute call.
Leave with a written audit in three days.
